The Brotherhood of Men Who Don't Settle

Your 30-Day Prostate Power Protocol

This isn't a diet. This isn't a quick fix. This is a complete 30-day protocol designed to rebuild your prostate health, restore bladder control, and reclaim the energy you thought was gone forever.
The Promise: Follow this plan for 30 days, and you WILL notice:

- Fewer nighttime bathroom trips (most men drop from 3–4 to 0–1)
- Stronger, more consistent urinary flow
- Better bladder control throughout the day
- Increased energy and vitality
- Improved testosterone markers

The Requirement: You must commit 100%. No half-measures. No "I'll start Monday." Today is Day 1.

ProstaPrime Daily Protocol

- **Daily dose:** 1 capsule with breakfast (follow label)
- Full glass of water with each dose
- Take at the same time daily for consistency

The 5 Daily Non-Negotiables

- **Strategic Hydration:** 2–3 liters daily, front-loaded before 3 PM
- **Movement:** 30+ minutes (walking, lifting, or both)
- **Sleep:** 7–8 hours in complete darkness
- **Kegel Exercises:** 3 sets of 10–15 reps daily
- **ProstaPrime:** 1 capsule daily with breakfast, no skipping

Nutrition Focus

Every meal is strategically designed around:

- **Zinc & Selenium:** The prostate minerals (pumpkin seeds, Brazil nuts)
- **Lycopene:** Cooked tomatoes for prostate protection
- **Omega-3s:** Wild fish to crush inflammation
- **Healthy Fats:** Testosterone building blocks
- **Cruciferous Vegetables:** Estrogen metabolism support

What to Expect Week by Week

Week 1: Body adjusts. You may not notice dramatic changes yet. Trust the process.
Week 2: First improvements. Less urgency, slightly better flow.
Week 3: Noticeable changes. Fewer nighttime trips, stronger stream.
Week 4: New baseline established. This becomes your new normal.
Ready? Let's go.

Day 1 – Foundation Day

Mindset: This is the day you take back control. No excuses, no delays.

Morning Protocol

- Wake up, drink 16 oz water immediately
- 10–15 minutes sunlight exposure (vitamin D activation)
- **Breakfast:** 3 eggs scrambled with spinach, tomatoes, and olive oil
- **ProstaPrime:** 1 capsule with full glass of water
- 1 cup green tea

Midday

- **Lunch:** Grilled wild salmon (omega-3s) with steamed broccoli (DIM)
- **Snack:** 1/4 cup pumpkin seeds (zinc) + 3–4 Brazil nuts (selenium)
- Hydration: Sip water throughout morning/early afternoon

Evening

- **Dinner:** Grilled chicken breast with roasted Brussels sprouts
- Stop drinking fluids 2–3 hours before bed

Movement & Recovery

- 30-minute brisk walk (aim for 10,000 steps)
- Kegel exercises: 3 sets of 15 reps (morning, afternoon, evening)
- Cold shower finish: 30–60 seconds

- 10 minutes light stretching before bed

Track This

- How many times did you urinate during the night? ____
- Urinary flow: Weak / Moderate / Strong (circle one)
- Energy level (1–10): ____

Day 2 – Build the Foundation

What to Eat

- Breakfast: Greek yogurt with blueberries and walnuts
- Lunch: Quinoa bowl with grilled chicken and avocado
- Snack: Apple slices with almond butter
- Dinner: Baked cod with asparagus

What to Drink

- 2.5–3 liters water (limit after 6 PM)
- Herbal tea (optional)

What to Do

- 25-minute walk
- Kegel exercises (3 sets)
- 5 minutes deep breathing

ProstaPrime

1 capsule with breakfast.

Day 3 – Steady Progress

What to Eat

- Breakfast: Omelet with tomatoes, onions, and bell peppers
- Lunch: Turkey and avocado wrap (whole wheat)
- Snack: Brazil nuts (3–4 nuts for selenium)
- Dinner: Grilled chicken with roasted cauliflower

What to Drink

Water throughout the day (front-load morning).

What to Do

30 minutes steady walking, Kegel exercises.

ProstaPrime

Continue daily dosage.

Day 4 – Anti-Inflammatory Focus

What to Eat

- Breakfast: Smoothie (spinach, berries, protein powder)
- Lunch: Lentil soup with side salad
- Snack: Carrot sticks with hummus
- Dinner: Baked salmon with green beans

What to Drink

2.5–3 liters water, 1 cup green tea.

What to Do

Gentle yoga or stretching (20 minutes), Kegels.

ProstaPrime

Take as directed.

Day 5 – Power Foods

What to Eat

- Breakfast: Oatmeal with chia seeds and berries
- Lunch: Grilled mackerel with mixed greens
- Snack: Pumpkin seeds
- Dinner: Turkey meatballs with marinara (extra tomatoes)

What to Drink

2.5–3 liters water.

What to Do

30-minute brisk walk, Kegel exercises.

ProstaPrime

Continue daily dosage.

Day 6 – Active Recovery

What to Eat

- Breakfast: 2 poached eggs with avocado
- Lunch: Chicken salad with olive oil dressing
- Snack: Mixed nuts (almonds, walnuts)
- Dinner: Grilled shrimp with zucchini

What to Drink

Water + optional herbal tea.

What to Do

Stretching + 20-minute walk, Kegels.

ProstaPrime

Take as directed.

Day 7 – Week 1 Complete: Assessment Day

Congratulations. You just completed the hardest week. Your body is adapting. Changes are happening at the cellular level even if you don't feel them yet.

Today's Meals

- **Breakfast:** Greek yogurt with flaxseeds, berries, walnuts
- **Lunch:** Baked chicken with roasted vegetables (include tomatoes)
- **Snack:** Apple slices with almond butter
- **Dinner:** Tomato-based vegetable soup with lean protein

Week 1 Progress Check

Answer These Honestly:
1. Nighttime Urination

- Day 1 trips: ____ — Day 7 trips: ____
- Improvement? Yes / No / Slight

2. Urinary Flow Strength

- Day 1: Weak / Moderate / Strong
- Day 7: Weak / Moderate / Strong
- Improvement? Yes / No / Slight

3. Urgency & Control

- Fewer sudden urges? Yes / No / About the same

- Better control when urge hits? Yes / No / About the same

4. Energy Levels

- Day 1 (1–10): ____ — Day 7 (1–10): ____

5. Compliance Check

- ProstaPrime taken daily? ___/7 days
- Kegels completed daily? ___/7 days
- Hit movement goals? ___/7 days
- Front-loaded hydration? ___/7 days

Week 1 Lessons

What worked well this week?

What needs adjustment?

Commitment for Week 2:

Movement Today

- Light 20–30 minute recovery walk
- Kegel exercises (3 sets)
- Stretching or yoga (20 minutes)
- Reflect and plan Week 2

Reminder: Week 2 is where real changes accelerate. Stay the course.

Day 8 – Omega-3 Boost

What to Eat

- Breakfast: Scrambled eggs with smoked salmon
- Lunch: Tuna salad with olive oil and greens
- Snack: Walnuts
- Dinner: Baked trout with steamed broccoli

What to Drink

Water throughout the day + 1 cup green tea.

What to Do

30-minute brisk walk, light stretching, Kegels.

ProstaPrime

Continue daily dosage.

Day 9 – Lycopene Power

What to Eat

- Breakfast: Omelet with tomatoes and onions
- Lunch: Chicken with tomato-based sauce
- Snack: Cherry tomatoes with mozzarella
- Dinner: Grilled fish with roasted red peppers

What to Drink

Minimum 2.5 liters water.

What to Do

35-minute walk or light cardio, Kegels.

ProstaPrime

Take as directed with meals.

Day 10 – Consistency Day

What to Eat

- Breakfast: Smoothie (spinach, berries, protein)
- Lunch: Quinoa with grilled vegetables
- Snack: Pumpkin seeds
- Dinner: Turkey breast with green beans

What to Drink

2.5–3 liters water, avoid sugary drinks.

What to Do

30 minutes walking + 5 minutes breathing exercises, Kegels.

ProstaPrime

Continue as directed.

Day 11 – Cruciferous Power

What to Eat

- Breakfast: Eggs with sautéed kale
- Lunch: Grilled chicken with cauliflower rice
- Snack: Brazil nuts (3–4)
- Dinner: Baked salmon with Brussels sprouts

What to Drink

Water all day, herbal tea optional.

What to Do

Gentle yoga or stretching (25 minutes), Kegels.

ProstaPrime

Take as directed.

Day 12 – Momentum Builder

What to Eat

- Breakfast: Greek yogurt with berries and chia
- Lunch: Tuna wrap with avocado
- Snack: Mixed nuts
- Dinner: Grilled turkey with roasted vegetables

What to Drink

3 liters water, green tea optional.

What to Do

40-minute brisk walk, Kegels.

ProstaPrime

Continue daily dosage.

Day 13 – Halfway Point: Momentum Check

You're officially halfway. This is where quitters drop out. This is where champions double down.
Which one are you?

Today's Protocol

- **Breakfast:** 2–3 boiled eggs with tomato slices and avocado
- **Lunch:** Grilled wild salmon with mixed greens and olive oil
- **Snack:** 1/4 cup pumpkin seeds + 3–4 Brazil nuts
- **Dinner:** Grilled chicken breast with steamed broccoli
- **Hydration:** 2.5–3 liters, front-loaded before 3 PM
- **ProstaPrime:** 1 capsule with breakfast

Midpoint Performance Review

Nighttime Freedom Progress

- Week 1 average (Days 1–7): ____ trips
- Week 2 average (Days 8–13): ____ trips
- Improvement: ____ fewer trips per night
- Sleeping 4+ hours straight? Yes / No / Sometimes

Daytime Function

- Urination frequency: Every ____ hours

- Stream strength: Weak / Moderate / Strong
- Urgency reduced? Yes / No / Somewhat
- Bladder emptying: Complete / Mostly / Incomplete

Energy & Vitality

- Morning energy (1–10): ____
- Afternoon energy (1–10): ____
- Overall stamina: Improved / Same / Worse

Honest Compliance Check

- ProstaPrime taken daily: ____/13 days
- Kegel exercise days: ____/13
- Movement/exercise days: ____/13
- Clean eating days: ____/13
- Hydration protocol followed: ____/13

Course Correction (If Needed)

If you're seeing results: Keep doing exactly what you're doing.
If progress is slow:

- Are you REALLY front-loading water before 3 PM?
- Are you doing Kegels EVERY day (not just "when you remember")?
- Is your ProstaPrime dosing consistent (same times daily)?
- Are you eating enough zinc and selenium foods?
- Are you eliminating bladder irritants (caffeine, alcohol)?

Movement & Mindset

- 30–40 minute brisk walk or strength training
- Kegel exercises: 3 sets of 15 reps
- 10 minutes stretching

- Reflect: What's working? What needs adjustment?

The Second Half: This is where the magic happens. Your body is primed. Your habits are forming. Push harder.

Day 14 – Anti-Inflammatory Day

What to Eat

- Breakfast: Smoothie bowl with berries and nuts
- Lunch: Mackerel with steamed vegetables
- Snack: Apple with almond butter
- Dinner: Turkey meatballs with marinara

What to Drink

Water throughout the day (minimum 2.5 liters).

What to Do

35-minute walk or light cardio, Kegels.

ProstaPrime

Continue daily dosage.

Day 15 – Strong Steady

What to Eat

- Breakfast: Omelet with spinach and mushrooms
- Lunch: Chicken and vegetable bowl
- Snack: Walnuts
- Dinner: Grilled cod with asparagus

What to Drink

2.5–3 liters water, avoid caffeine after 2 PM.

What to Do

40-minute brisk walk, Kegels.

ProstaPrime

Take as directed.

Day 16 – Active Recovery

What to Eat

- Breakfast: Greek yogurt with flaxseeds
- Lunch: Grilled fish with salad
- Snack: Brazil nuts (3–4)
- Dinner: Steamed vegetables with lean protein

What to Drink

Water all day, herbal tea optional.

What to Do

Gentle yoga or stretching (30 minutes), Kegels.

ProstaPrime

Continue as directed.

Day 17 – Nutrient Dense

What to Eat

- Breakfast: Scrambled eggs with tomatoes and avocado
- Lunch: Salmon salad with olive oil
- Snack: Pumpkin seeds
- Dinner: Grilled chicken with roasted peppers

What to Drink

3 liters water, green tea optional.

What to Do

45-minute walk or light cardio, Kegels.

ProstaPrime

Take as directed.

Day 18 – Progress Check

What to Eat

- Breakfast: Smoothie (greens, berries, protein)
- Lunch: Turkey and avocado wrap
- Snack: Mixed nuts
- Dinner: Baked fish with green beans

What to Drink

2.5–3 liters water.

What to Do

30-minute walk + 10 minutes stretching, Kegels.

ProstaPrime

Continue daily dosage.

Day 19 – Consistency Wins

What to Eat

Eggs with vegetables (breakfast), grilled chicken salad (lunch), pumpkin seeds (snack), salmon with broccoli (dinner).

What to Drink

2.5–3 liters water.

What to Do

30-minute brisk walk, Kegels.

ProstaPrime

Take as directed.

Day 20 – Light Clean

What to Eat

Greek yogurt with berries, tuna salad, apple with nuts, grilled turkey with vegetables.

What to Do

Stretching + 25-minute walk, Kegels.

ProstaPrime

Continue daily dosage.

Day 21 – Three-Week Milestone: The Transformation Zone

This is it. You're in the zone where habits become automatic and results become undeniable. Most men quit before they reach this point. You didn't. That says everything.

Today's Nutrition

- **Breakfast:** Omelet (3 eggs) with tomatoes, onions, spinach
- **Lunch:** Chicken and quinoa bowl with avocado and greens
- **Snack:** Mixed nuts (pumpkin seeds, almonds, walnuts)
- **Dinner:** Hearty vegetable soup with lean protein

3-Week Transformation Assessment

Nighttime Freedom

- Day 1 average trips: ____ — Day 21 average: ____
- Reduction: ____ trips per night
- Sleeping through the night? Yes / No / Sometimes

Urinary Function

- Stream strength improved? Yes / No / Significantly
- Hesitancy reduced? Yes / No
- Post-void dribbling better? Yes / No
- Overall bladder control (1–10): ____

Energy & Vitality

- Morning energy (1–10): ____
- Overall stamina: Better / Same / Worse
- Mood and confidence: Improved / Same / Worse

Physical Changes

- Weight change: +/- ____ lbs
- Muscle tone: Better / Same / Worse
- Inflammation/bloating: Reduced / Same / Increased

Compliance Score (Be Honest)

- ProstaPrime daily: ___/21 days
- Kegel exercises: ___/21 days
- Movement goals: ___/21 days
- Nutrition compliance: ___/21 days
- Hydration protocol: ___/21 days

What's Changed Mentally?

List 3 ways you feel different than Day 1:

1. _____
2. _____
3. _____

Movement & Recovery

- Gentle yoga or active recovery (30 minutes)
- Kegel exercises (3 sets of 15 reps)
- Nature walk or outdoor activity
- Deep breathing and reflection

Final 9 Days: This is where you cement these changes for life. Finish strong.

Day 22 – Antioxidant Boost

What to Eat

Berry smoothie, grilled fish with tomato sauce, walnuts, chicken with roasted vegetables.

What to Do

40-minute brisk walk, Kegels.

ProstaPrime

Take as directed.

Day 23 – Strong Habits

What to Eat

Eggs and avocado, salmon with greens, Brazil nuts, turkey with Brussels sprouts.

What to Do

30–40 minutes walking, Kegels.

ProstaPrime

Continue daily use.

Day 24 – Light Balanced

What to Eat

Oatmeal with seeds, grilled chicken with vegetables, fruit, steamed greens with fish.

What to Do

Stretching + breathing exercises, Kegels.

ProstaPrime

As directed.

Day 25 – Stay the Course

What to Eat

Scrambled eggs, tuna salad, pumpkin seeds, chicken with cauliflower.

What to Do

45-minute walk, Kegels.

ProstaPrime

Take as directed.

Day 26 – Mindful Nutrition

What to Eat

Greek yogurt with berries, baked salmon with salad, mixed nuts, turkey with greens.

What to Do

Eat slowly, 30-minute walk, Kegels.

ProstaPrime

Continue daily dosage.

Day 27 – Energy & Focus

What to Eat

Smoothie, grilled fish with vegetables, Brazil nuts, chicken with roasted peppers.

What to Do

40 minutes brisk walking, Kegels.

ProstaPrime

As directed.

Day 28 – The Final Sprint

Two days left. This is where champions prove themselves. Go all-in today.

Peak Performance Nutrition

- **Breakfast:** 3 eggs scrambled with spinach, tomatoes, avocado
- **Lunch:** Wild salmon salad with mixed greens, olive oil, pumpkin seeds
- **Snack:** Brazil nuts (3–4) + walnuts
- **Dinner:** Grilled turkey breast with steamed green beans and Brussels sprouts
- **ProstaPrime:** 1 capsule daily with breakfast, no skipping

Maximum Effort Day

- 45–60 minute walk or strength training session
- Kegel exercises: 4 sets of 15–20 reps (push harder)
- Cold shower finish: 2–3 minutes (testosterone boost)
- 15 minutes stretching or yoga

Pre-Finish Line Check

Rate yourself honestly (1–10):

- Nighttime urination improvement: ____
- Daytime bladder control: ____
- Urinary flow strength: ____
- Overall energy: ____

- Confidence level: ____
- Commitment to continue: ____

Tomorrow: Day 29 is your recovery day. Prepare mentally for Day 30's final assessment.
Reminder: These final days cement the changes. Don't coast to the finish line—sprint through it.

Day 29 – Light Day

What to Eat

Light meals: vegetable soups, salads, lean protein, extra hydration.

What to Drink

Extra hydration (3 liters, but reduce evening intake).

What to Do

Gentle walking, deep breathing, Kegels.

ProstaPrime

Continue daily dosage.

Day 30 – Mission Complete: Your New Baseline

You did it.
30 days of commitment. 30 days of discipline. 30 days of taking control when most men just accept decline.
This isn't the end. This is your new beginning.

Final Assessment: Where You Stand

The Numbers
Nighttime Urination

- Day 1 baseline: ____ trips per night
- Day 30 result: ____ trips per night
- Total reduction: ____ trips (___% improvement)

Urinary Function

- Stream strength: Weak / Moderate / Strong / Very Strong
- Start time (hesitancy): Immediate / Slight delay / Long delay
- Bladder emptying: Complete / Mostly / Incomplete
- Overall control (1–10): ____

Physical Transformation

- Weight change: +/- ____ lbs
- Energy level (1–10): ____
- Sleep quality (1–10): ____
- Confidence (1–10): ____

What You've Proven

You've proven that prostate health ISN'T just "part of getting older."
You've proven that natural solutions WORK when applied consistently.
You've proven that YOU control your health outcomes.

Biggest Wins (List 5)

1. _____
2. _____
3. _____
4. _____
5. _____

Your Next 30 Days

This protocol doesn't end today. These habits are now your lifestyle.
Continue:

- ProstaPrime daily (ongoing support)
- Prostate-friendly nutrition (zinc, selenium, lycopene, omega-3s)
- Strategic hydration (front-load, stop 2–3 hours before bed)
- Daily movement and strength training
- Kegel exercises (maintain pelvic floor strength)
- Quality sleep in complete darkness

Add:

- Quarterly prostate check-ups (stay proactive)
- Advanced strength training (build more muscle = more testosterone)
- Stress management practices (meditation, nature time)
- Community support (share your wins, help other men)

Warning: The 70/30 Rule

You need 70% compliance to MAINTAIN results.
You need 90%+ compliance to IMPROVE further.
Slipping back to old habits = slipping back to old problems.
Your choice.

Today's Celebration Meal

Eat clean, but enjoy the food that fueled your transformation:

- Grass-fed steak or wild salmon
- Roasted vegetables with olive oil
- Sweet potato or quinoa
- Dark chocolate (85%+ cacao) for dessert

Final Words

You just did what 95% of men never do: you took action, stayed consistent, and saw it through.
Your prostate health has improved.
Your energy has returned.
Your confidence is back.
This is your new normal. Protect it.
Welcome to the 5%.

The Brotherhood of Men Who Don't Settle

You just joined an elite group: men who refuse to accept decline as inevitable.
Men who take action instead of complaining.
Men who choose discipline over comfort.
Men who understand that health is the foundation of everything else in life.

The Path Forward

This 30-day protocol gave you the blueprint. Now you own it.
Keep doing what works:

- ProstaPrime daily (your prostate's insurance policy)
- Zinc and selenium every day (pumpkin seeds, Brazil nuts)
- Lycopene from cooked tomatoes (prostate protection)
- Omega-3s from wild fish (crush inflammation)
- Strategic hydration (front-load water, dry before bed)
- Strength training 3–4x weekly (testosterone optimization)
- Kegel exercises daily (bladder control maintenance)
- 7–8 hours of quality sleep (recovery and hormones)

Avoid what destroys:

- Plastics and BPA (hormone disruptors)
- Processed foods and sugar (inflammation triggers)
- Excessive alcohol (testosterone killer)
- Chronic stress (cortisol elevation)
- Sedentary lifestyle (circulation destroyer)

Share Your Wins

Other men are struggling right now with the same issues you just conquered.
Your success can inspire them to take action.
Share what worked. Help another man reclaim his health.

Stay Connected

Visit **TrustedNutraProducts.com** for:

- Additional resources and guides
- Ongoing support and community
- Advanced protocols and strategies
- ProstaPrime restocking

Remember This

Every man over 40 faces a choice:
Accept decline, or fight back with everything you've got.
You chose to fight.
You committed 30 days.
You saw results.
Don't stop now.
